SHIP MEN WIN ON WORK RULE**Supreme Court Throws Out Suit of Sailor****Employment Regulations on Coast Triumph****Corporation Melon Proceeds Held Taxable**

(By A. P. NIGHT WIRE)
WASHINGTON, Nov. 23.—A suit attacking the employment regulations enforced by the Ship Owners' Association of the Pacific Coast and the Pacific American Steamship Association was thrown out today by the Supreme Court.

The regulations as they apply to the employment of seamen were attacked at San Francisco by Cornelius Anderson, president of the International Seamen's Union, who contended that they set up an unlawful monopoly.

Today's refusal of the Supreme Court to review the case will have the effect of upholding the lower court's decision which sustains the validity of the regulations.

A spokesman for the 10,000 members of the International Seamen's Union were restrained in their constitutional right to sue because of an agreement among ship owners on the Pacific Coast under which certain rules and regulations were adopted particularly to a discharge book, which he asserted that seamen were required to present when making application for employment.

He asserted that he had been discharged at San Francisco when unable to show such a book and suffered treble damages on the ground that the agreement was a restraint upon interstate and foreign commerce, and in violation of the Sherman Act. The San Francisco District Court had dismissed the complaint.

MELON-CUTTING PROCEEDS HELD TAXABLE

(By A. P. NIGHT WIRE)
WASHINGTON, Nov. 23.—When a corporation cuts a melon in a profitable year its shareholders must regard their share of the distribution as taxable income, even though technically the payments are not made out of current profits.

CARD FIFTEEN YEARS IN MAIL**Postage Raised But Postal Men Send Minus Along****(EXCLUSIVE DISPATCH)**

WEST LEBANON (Mo.), Nov. 23.—While on a visit to New York, October 1, 1916, Mr. and Mrs. C. S. Lent of this city mailed a postcard to a member of the household here. The card has just reached its destination, fifteen years after being mailed, and although the postage on souvenir cards has been raised, the government allowed the belated card to come through at the old rate.

The attorney, the Chronicle will add, declares the breach-of-promises suit of Miss Margarette McNulty, formerly of Oakland and Hollywood, is "without legal basis."

McNulty was said to have accused the rumor that Clark had been sent out of the country as a means of breaking off the engagement of Miss Minassian. Young Clark was said to have told her, "I am here to inspect a mining property for my father and other financiers."

NEW YORK, Nov. 23.—William Andrews Clark, III, grandson of the late Senator William A. Clark, has been sued in the Supreme Court by Margarette E. McNulty, his actress for \$250,000 for alleged breach of promise. Mr. Clark now is in London en route to Africa on a business trip for his father, William A. Clark, Jr.

Papers were served by a court order at a hotel where Mr. Clark was staying. His lawyer, John McVay of San Francisco, contended they were invalid. Dispatches from San Francisco stated that Mr. McNulty had received a copy of the complaint.

Miss McNulty, who resides in Oakland, Cal., alleged in her complaint that Young Clark had been sent to Europe a year ago, and that she accepted his proposal of marriage after a rapid fire courtship. He then refused to carry out the agreement, she charged.

Counsel for Mr. Clark today stated that Clark was not in this country but was in Europe when the papers were served.

CLARK HEIR TO BE WED TO DANCER**Betrothal Announced as Breach of Promise Suit is Filed by Another****(BY A. P. NIGHT WIRE)**

SAN FRANCISCO, Nov. 23.—William Andrews Clark III, grandson of the late former Montana Senator, a member of the Senate, has been raised, the government allowed the belated card to come through at the old rate.

The attorney, the Chronicle will add, declares the breach-of-promises suit of Miss Margarette McNulty, formerly of Oakland and Hollywood, is "without legal basis."

McNulty was said to have accused the rumor that Clark had been sent out of the country as a means of breaking off the engagement of Miss Minassian. Young Clark was said to have told her, "I am here to inspect a mining property for my father and other financiers."

Slayer in Daly Kidnapping Case to Pay in Chair**(EXCLUSIVE DISPATCH)****NEWARK (N. J.) Nov. 23.—**

Harrison W. Noel, 26 years of age, convicted murderer of Raymond Pierce, taxi driver, was sentenced yesterday by County Judge Charles C. Sie in the electric chair during the week of January 16.

Noel was asserted to have killed Pierce, then used his cab to kidnap Mary Daly, 6, whom her husband, had assigned in court

as charge of assault.

John W. Galloway of 72 Dana street, Cambridge, was the defendant in the case. Noel was charged with assault and battery on his daughter's husband, Martin E. Bechtel, a Congregationalist of Dana street. The latter charged

Mechanics Battle Romans in Crucial Thanksgiving-Day Game

LINCOLN WINS IF POLY WINS

Eternal Triangle Puts City League in Tangle

Bunting Goes to Los Angeles if Mechanics Lose

Turkey-Day Game is Big Prep Attraction of Year

Without playing another game or being scored on all season, the Lincoln High Schools stands a good chance of winning losing or tying for the City League football championship. Take your choice. The eternal triangle finds a place in football as well as domestic tribulations. Polytechnic and Los Angeles are the other parties in this particular triangle, which can end in three ways.

"It plays a big part in the discussion of the football situation we can start off with the two-letter conjunction made famous by Rudyard Kipling. If Los Angeles defeats Polytechnic Thursday afternoon, the argument will be over right then and there. The Romans, with a clean slate, will be shown the champion of the City League without further ado. On the other hand, should the Mechanics defeat the Pioneers, Lincoln will out on top of its record, will be in the premier position. But should the Mechanics and Romans tie, as they did last year, there will be plenty of room for argument with Los Angeles and Lincoln tied for the bunting.

ROMANS PICKED

If the two schools tie there will probably be a play-off for the championship. However, there is but little possibility of a tie. Los Angeles to date has shown up much better than Poly and rates two touchdowns better than the Mechanics. The game should be a real thriller from start to finish. The schools finished at 37,000. Los Angeles grid fans are one of the most ardent exhibitors of the year to tie, 7 to 7, last Turkey Day. Although Poly is weaker this year than last, very few of the tables that now exist have been turned. Poly enters last year's fracas favored to defeat the Romans; this year Los Angeles is favored, but by a slight margin. Take your pick.

When Polytechnic lost to Lincoln, it generally conceded that the Mechanics were not up to the usual game. The Railsplitters, picked to take a beating, outgouged and outplayed the Mechanics from the first whistle to the last. The Lincoln Hins played the Poly forwards off their feet and stopped the backfield.

GREAT BACKFIELD

On the line, Los Angeles will probably be the slight favorite over Polytechnic, but the two backfields will be very nearly equal. For Poly Murphy will stay at quarterback. Strohman and Gammie, halfbacks, and Lauterman, fullback. For Los Angeles, Moffa will start at quarter, Moses and Almada at halfbacks, and the blitzer, Smith, at fullback. The eight men named above form two of the sweetest backfield combinations in local professional circles, and when they click, there is bound to be action aplenty.

POLYTECHNIC PLAYS STRAIGHT FOOTBALL

For the most part, depending on Lincoln, the Romans will keep the opposing linemen down with their heavy plumping.

The Mechanics also feature a neat passing attack, but the Pioneers are less in the Roman game.

The Pioneers will undoubtedly furnish the fans with an exhibition of how the ball should be played, and the two all-city candidates for halfback, Weber, who broke an arm in the Franklin game. However, Cooley does not hope that he will be promoted enough points to win, providing the Mechanics think nothing of throwing the ball forty to sixty yards. The backs usually average about ten yards where the other team isn't to drag the ball with Notre Dame precision.

START AT 12:30

The gurus, which will be played as a prelude to the football-trotting session, is scheduled to begin at 12:30 sharp in order to get the varsity game off at 2:30 on the dot. According to the latest reports, more than 6,000 persons will crowd the Coliseum to witness the two games.

DURAY EQUALS SPEED RECORD

(Continued from First Page)

up the mark last week with an average of 135 miles an hour, was surprised when he was told that Duray had set a new record. The veteran stopped working on the motor of his Junior 8 special long enough to remark that he was surprised to find that he was not faster. He predicted that Duray would go over 140 miles per hour before the practice session for next Sunday's race came to an end. Duray stated that he thought he was going out again today and it was barely possible that he would break the record a few notches higher.

With Duray's record of 135 miles per hour, there are four drivers now qualified for the race on Sunday. Cooper, De Paul, Duray and Duray had all done better than the required 130 miles per hour, the pace that every driver must reach before he will be allowed to race the starter on Sunday.

GIANTS AND WHITE KINGS IN BATTLE

The interest being shown in the coming Thanksgiving Day base ball game between Brooklyn's White Kings and the Philadelphia Royal Colored Giants is so great that all reserved seats are sold out and two new boxes had to be built to take care of the Kings' fans who are going to attend in a body. Much of this interest is due to the fact that a pitchers' battle will be pitted off White King hurler, who has never been beaten by the colored stars, gets to get.

The last time the two clubs met they broke all attendance records for the White Sox Park and hundreds were turned away.

A TOUGH ROMAN

Julius Caesar, who became famous by doing something more than wear a toga, has nothing on Louis Almada, speedy L. A. High halfback, when it comes to conquering the backfield. This year is in a big way responsible for the Romans' success in the City League race so far. All local grid fans who have seen the action will get a chance to do so Thanksgiving Day when L. A. High and Poly meet in their annual battle at the Coliseum.

GRID TITLES AT STAKE

Lightweights and Fleaweights Clash Today to Decide City League Championships

Two perfectly good City League football championships, lightweight and fleaweight, will be decided tomorrow when the 119 and 130-pound elevens of Polytechnic and L. A. High hook up in what give promise of developing rip-snorting battles. The lightweight tilt takes place on the Poly High field, while French Field is the scene of the battle between the unbeatens, Mechanics and Roman fleaweights.

The lightweight clash is attracting more attention because of the fact that the 130-pounders go through with a regular schedule just as the unlimited eleven.

Coach Ralph Jesson's Polytechnic bandana has gone through their first year of competition and they defeated or scored on, and remain the only unbeaten eleven in the lightweight circuit. If the Mechanics will stay true to their word, they will have annexed the undisputed title and will also get the championship should they hold the title to the end.

The Roman babes, coached by Dave Ridderhof, former Orr star, won from Hollywood, Manual and Foothill, but were defeated by Jefferson. The best the Romans can get out of the middle, even though they beat Poly, is a three-point lead.

The outstanding Roman midget, Cassidy, does the booting, passing and most of the running for the L. A. High crew, but is given good support by his teammates.

The Poly and L. A. High 118-pounders have both defeated Manual and Franklin, the only other schools in the league putting out fleaweight elevens. Comparative scores make the Romans favorites, but a tough battle looms.

W AND J TILT WITH CARNEGIE TECH OFF

(EXCLUSIVE DISPATCH)

WASHINGTON (Pa.) Nov. 22.—The unexpected announcement was made tonight by Manager H. H. Head of the W and J., the professional season game with Carnegie Tech at Forbes Field, Pittsburgh, on December 6, would not be played.

Approval had been given the conference by the presidents of the two institutions and a formal announcement that it was scheduled was expected today.

The decision was made after a conference between representatives of the two colleges this afternoon.

THE ROMAN BABES

Usala College, in East Orange, N. J., has a girls' football team.

RIFLES TO VICTORS

The State of California is going to present a brand new Army target rifle to each member of the team that wins the Southern California civilian rifle team of 1925, according to a letter just received from Adj. Gen. R. E. Mittelstaedt by Capt. E. C. Crossman, of the National Rifle Association, yesterday.

Mittelstaedt, a staunch friend of the civilian rifle shooter of California, stated that the great work of the California civilian team satisfies the requirements of the State and that it will take the form of a gift of a rifle to the members of the team.

The Los Angeles Rifle and Revolver Club will purchase and install suitable silver plates for the members of the rifle team, and the members of the United States Marines and forty-seven shark rifle teams.

RICKARD BOUTS IN AIR

(EXCLUSIVE DISPATCH)

NEW YORK, Nov. 22.—Tex Rickard and his matchmaker held another long conference today with the managers of the fund, also a broker, but nothing came of it except the same old story that "nothing had been done."

The prospect seems to be that Tex will still stage some sort of a boxing show Dec. 12,

on his own hook and then donate a portion of the proceeds to the fund.

FISHER QUILTS HARVARD

(EXCLUSIVE DISPATCH)

WALTHAM (Mass.) Nov. 22.—Bob Fisher is through as head coach of the Harvard football team, according to a statement made yesterday.

Fisher says he told his men before the game with Yale Saturday that he was living his last day as coach of Harvard and that he was now going to go into business.

There is no break that either forces Fisher to quit or that makes him leave his position as grid mentor as far as is ascertainable here, but his move is prompted merely by the greater lucrativeness of his as-

YOST PATS HIMSELF ON THE BACK

Michigan Grid Mentor Says Team is Best He Ever Coached

(BY A. P. NIGHT WIRE)

ANN ARBOR (Mich.) Nov. 23.—Fielding H. Yost, athletic director of the University of Michigan and for twenty-five years coach of its football team, hailed his 1925 squad "as members of the greatest team I ever coached" at the annual football dinner tonight.

"Cognizant of the wonderful record of the 1924 team and of the point-a-minute record that the veteran coach said, "you are members of the greatest team I ever coached, in fact the greatest team I ever saw in action."

Calling attention to the fact that the team amassed 212 points and allowed only 33, "against the strongest opposition," Yost said:

"No major team in years has been as remarkable defensive record."

He pointed out further that in the last three games with Northwestern, Ohio and Minnesota, only four first downs were made against Michigan.

Yost is of the opinion that selection of the best football team is too much of a job to be undertaken by any individual or group of men.

Yost says, however, that no matter what his opinion is, there will be no fewer than

BULLDOGS PLAY IN ARIZONA

Redlands Eleven Meets State Normal Grid Team at Flagstaff on Thanksgiving Day

(EXCLUSIVE DISPATCH)

REDLANDS, Nov. 22.—Hoge Workman, coach of the University of Redlands, has told his football men today not to turn in their suits for they are to have one more game this year. A game with Arizona State Normal at Flagstaff has been arranged and the Bulldogs will leave Redlands afternoon to play there Thanksgiving Day.

Workman says that Arizona has Workman is taking the following steps to prepare his team for the game: The men will be available to win the game. The men are all in fair shape after the terrific battle with Whittier on Saturday.

1926 ALL-AMERICAN TEAMS CHOSEN

"I think it will be all right to attempt to select an all-American team or an all-eastern team or an All-Pacific Coast team, for a single man or a group of men in those sections have the same chance of making and knowing the abilities of football men included or covered in their selections."

NORTHWESTERN HAS GOOD GRID RECORD

(BY A. P. NIGHT WIRE)

CHICAGO, Nov. 23.—The only claims of Northwestern University, as far as Western Conference honors are concerned, is that the football team won the games and lost one, the best record of Northwestern team in many years.

Coch Glenn Thistlethwaite made the announcement, adding, "We are awaiting the results of the various positions awarded by sports writers to Northwestern."

FEMININE LACROSSE PLAYERS IN ACTION

Six teams of girls, members of the Ladies' Lacrosse League of America, are in the Southern California winter "loop," and are now practicing steadily each week. Most of these athletic young women have had two or more years' experience, besides their athletic records in other major and minor sports, and are putting up a splendid showing in the tryouts now under way. Two teams practice every Saturday at Tournament Park, Pasadena, and two teams at the Venice Polytechnic athletic field, on the same days. Other teams practice during the week at Santa Monica and Altadena.

The schedule for the Southern California championship will be soon announced, in preparation for the national championship, which will be held at the Los Angeles Coliseum on Saturday, February 6.

BOYCE-ITE is a fuel-better and more economical to use than plain gasoline

IT IS NOT A "CARBON REMOVER"

—it prevents carbon from forming. It is true that Boyce-ite will, if used continuously, gradually soften the engine carbon deposits into a soft powder which will blow out of the engine and once clean, the motor will run cleaner, but the intelligent producer is to have your motor cleaned and the keep it clean with Boyce-ite.

BOYCE-ITE DOES MORE THAN PREVENT CARBON

—it creates a super motor fuel—a fuel that will give uniformly smoother operation and a quicker start—a fuel that gets the maximum horsepower from a motor and a real fuel economy.

Guarantee

REGARDLESS of the design of your motor, or the grade of gasoline you use, after adopting Boyce-ite treated gasoline to your standard motor fuel, you will find it necessary to remove carbon, because the carbon burned out and the oil burning to Boyce-ite and to the motor will be removed.

More than three thousand motors are expected to have their motors cleaned and the keep them clean with Boyce-ite.

Safe for these papers!**

THE fire came too soon and the firemen came too late. Precious records—the work of years—many that never could be replaced—blackened!

All over the country, daily, valuable records are going up in smoke. Here's a case in Birmingham, Ala. A merchant who had been awarded an insurance claim for \$75,000. But he could not sustain this amount because certain books, left out of his safe, had been consumed by fire. An accountant spent months on the case, at a large fee, and the merchant finally had to admit that his financial records of property lost entitled him to only \$50,000.

No notes, no financial contracts, no vital business papers in Birmingham carried \$57,500 insurance. Fire swept the premises, but the records were protected in a large safe and recovered intact. These records proved that stock on hand amounted to \$48,000. The insurance companies promptly paid in full and waived all claim on the salvage, which netted the business \$16,000.

Protection or destruction—which? And protection comes in! Look over your Shaw-Walker Safe booklet, "Years to Create, Minutes to Compute." It will show you how you can keep your records safe. Telephone now or write your name and address on a corner of this ad and mail it before you go home tonight.

\$14150 and up buys a Shaw-Walker Safe, delivered, with interiors extra to suit. Many sizes and models for all degrees of fire risk. The famous "Build-It-In-Skyscraper" construction is built into every Shaw-Walker Safe.

LUTHER REPLIES TO PACT CRITICS

Chancellor Defends Treaties Before Reichstag

Partisan Controversy Absent During Address

Adoption by Huge Majority Believed Assured

BY CABLE AND ASSOCIATED PRESS
BERLIN, Nov. 23.— Chancellor Luther defended the government's acceptance of the Locarno treaties in an impressive speech in the Reichstag today and requested ratification of the treaties on the ground that the international and economic situation of Germany and Europe was bound to reinforce the political and economic advantages of Germany.

Chief Justice McCoy in denying a preliminary injunction sought by the company, declared the Secretary of the Interior was authorized to present the case to the court that no court had a right to stop him.

The Chancellor was given a resounding ovation by all sections of the parliament, the majority which prevailed was in strange contrast to the partisan controversy which has been waged between the German delegates returned from Switzerland.

ADOPTION SEEKS ASSURED

The adoption of the treaty next Friday by an overwhelming majority.

Chancellor Luther informed the Reichstag that the present Cabinet would resign after the new coalition had been signed at London, making way for an enlarged coalition government which he said would be pro-German. He intended to pursue the policies inaugurated with the adoption of the Locarno treaties.

"Germany's inherent potentialities can only be developed along peaceful lines," he said, "and her presence in the League of Nations will afford her the opportunity for furthering the interests of her people within and without her borders."

He denied that Germany's entry into the League signified a weakening of her political prestige and expressed the conviction that the reasons for joining the League had become more urgent during the last year.

FOUNDED ON EQUALITY

He said this conclusion of the security pact of permanent importance to the political future of Europe. "Great Britain, Italy and Great Britain formerly presented a united front opposed to Germany," he said. "Now all five members of the Anglo-American community, bound by a treaty which is founded on complete equality. Thus a security pact aimed against Germany which was under serious consideration by these other four powers last year, definitely has been disposed of."

He said the adoption of commercial arbitration represented a long step in preserving world peace and conserving amicable relations among nations, because it dispenses of a policy of dictation and ultimatum.

RUSSIA TO STAND ALONE FROM LEAGUE

BY CABLE AND ASSOCIATED PRESS
BERLIN, Nov. 23.—Soviet Russia has indicated that she will, as in the past, stand aloof from the League of Nations and similar organization. Acting Foreign Minister Litvinoff declared today in a carefully prepared official statement. The Locarno security treaties will not alter the Soviet foreign policy, he said.

LARGE BUILDING PLANNED
(EXCLUSIVE DISPATCH)
STOCKTON, Nov. 23.—Construction of the \$150,000 twelve-story Modico-Denby Building in this city will begin April 15, 1936, according to the latest developments in the enterprise. The site of the building, the southeast corner of Main and Commercial streets, was purchased this week for the sum of \$60,000.

ELK HILLS OIL INJUNCTION HIT

Standard Loss Decision to Halt Investigation

Asserts Secretary Authorized to Press Inquiry

Mineral Character of Land Held in Question

BY A. F. MOORE WIRE

WASHINGTON, Nov. 23.—A move by the Standard Oil of California to stop the Interior Department's investigation into the mineral character of certain of its Elk Hills (California) land holdings was overruled today in the Supreme Court of the District of Columbia.

Chief Justice McCoy in denying

a preliminary injunction sought by the company, declared the Secretary of the Interior was authorized to press the inquiry.

The land, a part of the Naval Reservation, was leased over to the State of California for school purposes under the representation that it contained no minerals. Subsequently it was acquired by the Standard Oil Company. Title of the company was brought into question during the administration of Secretary Lane, and later hearings were held.

The chief justice said that he disagreed with Fall in the view

that the Department of the Interior had the jurisdiction to pursue the inquiry.

"The court," the opinion said, "is of the opinion that the inquiry into known mineral character of the land was not within the jurisdiction of the Land Office in relieving the land from the order of suspension in 1934 upon the report of the special committee that the land was even though it had become known the next day that the land was mineral and that the report was deliberately false, the department would have been helpless in advance."

"The Secretary did not determine that the lands were not known to be mineral," the opinion said. "In this instance that it was not worth while to inquire into that, for even though the evidence taken on the subject was not conclusive, he could not find as, as the inquiry as to that had been precluded by the department."

If Fall's action were final, the court said, there never was and never will be a determination of the contest directed by the department.

In the adoption of commercial arbitration, he stressed a long step in preserving world peace and conserving amicable relations among nations, because it dispenses of a policy of dictation and ultimatum.

He said this conclusion of the security pact of permanent importance to the political future of Europe.

"Great Britain, Italy and Great Britain formerly presented a united front opposed to Germany," he said. "Now all five members of the Anglo-American community, bound by a treaty which is founded on complete equality. Thus a security pact aimed against Germany which was under serious consideration by these other four powers last year, definitely has been disposed of."

Europe's financial clouds are passing. In those countries bordering on the Pacific unprecedented development will result from the purchasing power made possible by large external credits which will be placed at their command as their internal government and finances, are better organized.

For opportunities for participating in the resulting trade, Los Angeles is most highly favored. To our citizenship millions of dollars of profits will accrue but largely to those making a close study of economic forces at work.

URGES CALENDAR CHANGE

Canadian Advocates Thirteen Months of Twenty-eight Days Each As Time Remedy

[EXCLUSIVE DISPATCH]

CHICAGO, Nov. 23.—A year of thirteen months, of twenty-eight days each, with the months beginning on Sunday and ending on Saturday, is a dream of years of Moses B. Cotsworth of Vancouver, B. C., which he hopes to see turn into a reality very soon.

Mr. Cotsworth, who has spent the last three years as a traveling representative of the International Fixed Calendar League, passed through Chicago on a roundabout trip from Ottawa, Ont., where he had spent several weeks conferring with the government.

The "reformed calendar," which Mr. Cotsworth has been sponsoring a hobby all his life, now has grown to a movement of such proportions that it has attracted the attention of the League of Nations, many crowned heads, leaders of international business, union organizations and prominent churchmen.

The movement gained such

momentum a few months ago that its founders hope to be put into effect on January 1, 1926.

NEW YORK, Nov. 23.—This is an Alster story for girls. It's about a Canadian girl who became the highest priced dress designer in America.

Doris Reid (*private life Mrs. John Oakley*) most probably designs the ravishing frocks worn by your favorite film star. Doris Reid has just returned from Paris, and she will go to Paris again at least four times every year.

On that date the originator will be back in New York, and inserted January 1, 1926, the next period in which the year begins on Sunday.

"Sol" has been selected as the name of the new month, and it will begin on the present June 18 and terminate on July 15.

The new year will be 342 1/4 days long. Consequently,

every fourth year brings around another day, which is inserted on the 29th day.

Under the new rearrangement the thirteen-month calendar of twenty-eight days uses up only 365 days, leaving 13 extra days. It will be observed as "New Year's Day" and will be tucked in before December 31, though belonging to neither month. Then, every fourth year an extra day will be added and it will become the 29th day. And so on, month by month.

Apart from its simplicity, which is the main cog of the idea, the thirteen-month year will aid business considerably, the originator believes. His argument on this point is centered around the contention that thirteen months in the year will be more than enough time for the circulation of new books being circulated. The co-operation of the Canadian Post Office Department and the Boards of Trade of Montreal, Ontario, Toronto and Winnipeg have been obtained in making a ten-week test to determine just how much changing the calendar would affect business.

In his official trips to many of the business and commercial centers of the world Mr. Cotsworth has obtained the support of the League of Nations, the International Organization of Industrial Employees, the International Federation of Trades Union, organized women in many countries, railroads, the United States Chamber of Commerce, as well as the accredited heads of the Roman Catholic Church, the Greek Orthodox Church and the Church of England.

For a time difficulty loomed in the path of converting the calendar to its new form. The originator was told that the houses of Parliament were well aware of the proposal and were withholding their consent.

After months of negotiations, the originator was told that the bill would be introduced in the House of Commons on June 1, 1926.

Railways have enthusiastically endorsed the project. They see in the new alignment of holidays and payment days as well as in the new alignment of months, and they say that it will be much easier to plan their summer and winter services.

Following the experiment in Canada, Mr. Cotsworth plans a tour of the principal Canadian cities, where he will seek the support of the public.

He will make a bid for public support in this port.

OBJECTOR TO FIGHT VACCINATION AGAIN

[EXCLUSIVE DISPATCH]

SAN ANTONIO (Tex.) Nov. 23.—S. P. Lamly, conscientious objector to vaccination and the father of three children who are attending school without being vaccinated, declares that he intends to fight the vaccination laws in the courts again this year. He has six children, in common with all others who have not yet been vaccinated, he says he will appeal the cases.

NEWS OF SOUTHERN COUNTIES

MOVE TO STOP LOBBY WASTE

File Briefs in Case at El Centro

Taxpayer Objects to Sending Man to Washington

Third Attorney Permitted to Aid Court

(EXCLUSIVE DISPATCH)
EL CENTRO, Nov. 23.—Briefs were submitted by opposing attorneys today in the test suit brought by D. R. Crawford, an Imperial Valley taxpayer, against the Imperial Irrigation District, to determine the legal right of the district to spend public money for lobbying at Washington in behalf of the Swing-Johnson bill.

Judge Walter E. Guerin of Los Angeles, who presided at today's hearing after both Imperial County Superior Judges had disqualified themselves, stated that he would render a decision about the first of January.

As a basis for the present suit the directors of the Irrigation District, several weeks ago, employed Carl E. Foy of Tucson, a member of the national capital at a salary of \$250 a month and expenses to work in behalf of the Boulder Dam-Alameda Hill. In this connection a prearranged plan, Attorney Charles Brown, in behalf of Crawford, filed suit for a restraining order to stop the payment of Foy's salary.

An unexpected angle developed in the case this morning when Attorney Harry Horton of El Centro also took up the interest. Horton stated that he was acting in behalf of a large group of Imperial Valley property owners in the legislative program of the district directors on the ground that huge sums of money are being wasted in the employment of amateur lobbyists and untrained persons.

Horton charged that the test case is being presented in such a way as to mislead the court and for the purpose of enabling the district directors to spend public money at Washington without restriction. The whole case is merely a subterfuge, he said. Justice George Dennis, Horton's plan to appear as an intervening attorney, but granted him the right to submit a brief in the case as a friend of the court.

GETS HEAVY SENTENCE

Federal Court Sends Foreigner to Prison

(EXCLUSIVE DISPATCH)
FRESNO, Nov. 23.—Painfully ill, the Federal District Court today to charges of violating the Jones-Miller Narcotic Act Ray Park, a Korean was sentenced to serve two terms of three years each, in San Joaquin prison, and pay two fines of \$500 each. Judge Henning declared that only an executive order that he be deported at once could expire the sentence.

Park has been a resident of Fresno for two years, and was used by D. R. Crawford, as a stand figure in local narcotics investigation according to testimony given to the court.

With most of the day's session of the court given over to hearing of motions, it developed that the defense of the twelve former members of the police department charged with corruption before the Voelstad Act will not attempt to have the men tried separately, as was indicated soon after their arraignment. A motion for a trial date was presented to the court today. The trial is scheduled to start next Monday.

DISCUSS AVOCADOS

Growers to Hold Field Day at El Centro

(LOCAL CORRESPONDENT)

SANTA ANA, Nov. 23.—Based on previous records, preparations were being made today for entertaining 500 persons who are expected to attend the fourth annual field day of avocado growers in Orange county, to be held next Saturday at the community hall where this valuable fruit has been planted on the thermal slopes of La Habra Valley.

According to Harold Wahnborg, an active educational feature, will be stressed in the program with important phases of field management being discussed by authoritative speakers during the field tour. Representative plantings in the district will be visited. The field day will be immediately after a music luncheon to be served by the women of La Habra Community Hall. An exhibit of avocados will be made in the foreground in the auditorium of the Methodist Church, it was announced.

TONS OF TURKEYS TO BE SERVED NAVY MEN

(BY A. F. NIGHT WIRE)
SAN DIEGO, Nov. 23.—Tons of California turkey and Oregon cranberries, not to mention a couple of arrocks of other foodstuffs that go to make up a Thanksgiving dinner, will be delivered tomorrow to the hips and shore stations of the United States Navy here. Turkey which will cost more than \$10,000 has been purchased.

A sample bill of fare for the Thanksgiving dinner will include olives, hearts of turkey, sweet pickled soup, crackers, turkey, cranberry sauce, oyster dressing, macaroni and cheese, potato salad, and tomato salad; macaroni, cheese dressing, pumpkin pie, bananas, oranges, ice cream, marshmallows, coffee and cinnamon rolls.

A meal similar to that will be served to more than 1000 youngsters at the naval training station when they file in for their first Thanksgiving dinner in the Navy.

TO PROTECT HOME INDUSTRY

Mexican Officials Rule American Maids Too Speedy for Spanish Girls and Act to Regulate Unfair Competition

(EXCLUSIVE DISPATCH)

SAN DIEGO, Nov. 23.—The Juana is to be purged of imported girls, American brand, according to an edict issued by the chief of the Mexican customs. The "dame moths" have been stamped out, wanted and will be driven from their haunts in the border town like so many sheep. If any are present by 9 o'clock tonight they will be given lodgings in the Tie Juana jail.

One Automobile is Reward for All-Night Watch

(EXCLUSIVE DISPATCH)

SANTA ANA, Nov. 23.—One case of Sooth whisky, an automobile and one prisoner fell into the hands of agents at 4 o'clock this morning, after more than a score of officers had guarded roads throughout the night to block rum runners from making a "haul" through the county, it was learned at the Sheriff's office today.

The prisoner and alleged liquor runner, a man, who was taken by Federal officers from the Los Angeles office, were working on a tip that someone largely had ships of liquor been passing through the county last night. All important roads were watched throughout the night, the others were stopped to return to San Antonio handed, when the big car was stopped and captured.

The prisoner and alleged liquor runner, a man, who was taken by Federal officers. "Last night's catch is merely a forerunner of many that will take place in this country," said the Sheriff. "All important roads were watched throughout the night, the others were stopped to return to San Antonio handed, when the big car was stopped and captured."

Notable Projects Periled by Soaring Costs

(BY A. P. NIGHT WIRE)

PHILADELPHIA, Nov. 23.—The State Supreme Court today upheld the first-degree conviction of William Cavalier, the 15-year-old boy sentenced to death by the Schuylkill County Court for the killing of his grandmother.

Cavalier is believed to be the youngest boy ever sentenced to death by a Pennsylvania court. His grandmother, Mrs. Catherine Cavalier, of Mechanicsville, never will be able to get him off, even if she has the services of the best lawyers in the country.

She has been given a new trial, which will be held at the end of the month.

COPPER STRONG AND SHADE OFF

Market Situation Continues Stationary

Industry Asleep to Value of Stabilization

Prospects for Early Advance in Price Dim

BY CHARLES F. WILLIS

The copper situation has seen but little change during the last week, the price sloughing off a little to 14 5/8, but strong. The feature of the present copper situation is that the industry is thoroughly awakened to the value of stabilizing the situation and reaching a point where there is little chance of further fluctuations. This can be done only by keeping production and consumption reasonably close together; increasing production as the competitive dealers require, least to the point where it is taxing the larger producers to meet the demand for the metal.

The market cannot be much changed in the copper situation under the present sold-up condition of the larger producers and their willingness to sell further down the market. There is little inclination to shade prices below the present level or to go above. Some producers are still holding back their product, but are still looking for buyers, for ample copper is available at the market.

Production, especially copper from United States mines and foreign supply to United States smelters, has no change of consequence during the month, the total being 70,424 tons, while the average for the first ten

MARKET FLASHES

BY A. P. NIGHT WIRE

NEW YORK, Nov. 22.—Stocks: Market shows most sharply, lower week. Foreign exchange mixed; French francs at record high; Wall street buying.

CORAL GABLES: Wall street buying.

Coffee lower: easier Brazilian market.

CHICAGO, Nov. 22—Wheat lower: bushels mostly steady; lower end market; little wear; shipping demand normal.

Hoag lower: oil interests buying.

months of the year was almost the same figure, or 70,475 tons. The October figure was, however, about 8,000 tons above the September output, which is just about the same amount as the increase in stocks of copper as of the last inst., as against October 1.

PRODUCTION GAINS

While looks to those who have no closely, tends to indicate that the last year has seen a drop in United States production, that is not correct.

When the Department of Agriculture was first organized in 1862, the issuance of systematic crop reports was practically the only information with special reference to the cotton crop. The following year, the Department of Agriculture, in addition to a detailed statement of the crop, was started largely at the insistence of the farmers of the country, who had been urging the existence of such an agency for many years.

"Crop reports have been issued regularly since that time, and now include a statement of the cotton acreage, a detailed statement of the cotton crop, the following year.

"The cotton crop, for example, in 1922 was 14,544 tons, in 1924, 41,115 tons, and in 1925, 70,475 tons.

The high point was in 1925, with a production of 74,300 tons.

It was this overproduction that started the toboggan on the copper price, and caused the present unusual fall in the market.

"Prior to 1913 for grain, and 1915 for cotton, the department, following the publication of the official forecast, people read in the press that the crop would decline, and this was from that letter.

"When the Department of Agriculture was first organized in 1862, the issuance of systematic crop reports was practically the only information with special reference to the cotton crop.

"Prior to 1913 for grain, and 1915 for cotton, the department, following the publication of the official forecast, people read in the press that the crop would decline, and this was from that letter.

To The 40,000

JULIAN STOCKHOLDERS

10,192 shares of JULIAN PREFERRED, of a market value of approximately \$3,000.00, changed hands Saturday morning on the Los Angeles Stock Exchange. This is not only all previous high records in the sale of JULIAN stock in a similar session, but surpassed all other records of sales of stocks in a single session on Los Angeles Stock Exchange.

WHY?

IRST: Because, those who bought see that there is a chance to double, even treble their money on JULIAN Preferred in a short time; they what I want every stockholder to namely: That the PAR value of AN is \$50.00 per share, and that INEERS' APPRAISED VALUE IS UND \$47.00 per share; and this not take into consideration the of the good-will and the value of stocks from a speculative standpoint GOING CONCERN.

COND: They know that the any is one of the largest and most independent companies, and panning more rapidly than any company in Southern California.

IRD: That it is the one independent company having complete pipe facilities, together with harbor and terminal capable of shipping all ports and markets of the world, a capacity sufficient to load two simultaneously, at the rate of barrels of crude oil per hour per

TAX BURDEN GAINS WEIGHT

Twelve and a half cents out of every dollar of the combined income of the American people during the past year went into taxes, according to a study in taxation made by the National Industrial Conference. Total tax burden was \$25,000,000,000, or \$25,000,000,000 in 1913.

While the average gain in purchasing power of the dollar since 1913, the national income in 1924, was \$25,000,000,000, or \$25,000,000,000 in 1913.

The total burden of Federal, State and local taxes has nearly doubled in proportion to the increase in population.

In 1913, the average tax burden was 6.2 per cent in 1913 to 12.5 per cent in 1924, also showing an increase over the preceding year. The board's computation of the total per capita tax burden rises from \$23.73 in 1913 to \$76.97 in 1924, or more than twice as much.

The national income in 1924 is estimated by the conference board to be \$25,000,000,000, or \$25,000,000,000 in 1913.

The conference board, however, specifically emphasizes the increased tax burden in 1924, as the national income is the trust and most significant test of the burden-someness of taxes, inasmuch as a nation's income is the measure of a nation's capacity to spend.

HARMONY IN TRANSPORT LINES NOTED

Growth of Co-operation in Rail, Road and Waterways Praised by Coolidge

BY A. V. WOOD WIRE

MILAMI (UPI) Nov. 23.—Gathering of sentiment favoring co-operation of the various means of transportation was noted by President Coolidge in a letter to J. Hampton Moore, president of the Atlantic Deep Waterways Association, which today began its eighteenth annual convention here.

"The rail, the highway and the waterways have rendered a distinct service in the past," the President's letter said. "They can render a greater service, more satisfying to the producer, and to the consumer, if made to assist rather than to compete."

This meeting was the ninth in the series of twelve included in the fall quarter.

Awarded San Diego Lines

An issue of \$500,000 San Diego water system 4% per cent bonds was declared November 12, 1925, by the City Council of the city of San Diego to the Detroit Trust Company and the Old Colony Trust Company of Boston.

Higher dividends were declared in December.

The Southern Trust and Commerce Bank of San Diego and Anglo London Park Company in joint stockholders of the Old Colony Martland, Inc., was now declared.

Dividends Announced

An extra dividend of 50 cents was declared by the board of directors of William Wrigley Jr. Inc., manufacturer of chewing gum, out of the income of the company.

Twenty-five cents dividends were declared by the New York Stock Exchange on December 15, according to private wire advices.

Four monthly dividends of 25 cents were declared by the New York Stock Exchange on December 15.

The regular quarterly dividend of 2% cent common stock was announced yesterday by the board of directors of the North American Company, payable January 15.

On December 5, a 75 per cent cash dividend was also declared on the preferred payable on January 2 to stockholders of record December 2.

BOMBAY MAN STUDIES COTTON GINS IN TEXAS

REPORTS INDIAN SOIL THIN AFTER MANY YEARS OF CULTIVATION

BY A. V. WOOD WIRE

DALLAS (UPI) Nov. 23.—An investigation of the methods of growing and ginning cotton in Texas is being made by V. R. Dharwarkar of Bombay, agricultural expert for the Indian government, and also representing the Cotton Sales Society, Ltd. of Bombay, which he empowered him to make a general survey of cotton production in India.

He will visit the cotton-growing areas of the country, and will be assisted by a team of experts.

He will be accompanied by his wife, Mr. & Mrs. D. S. Whelan, who have been invited to the United States by the Indian government.

He will be accompanied by his wife, Mr. & Mrs. D. S. Whelan, who have been invited to the United States by the Indian government.

CONFESSES HE SLEW BROTHER

*Man Asserts Shots Intended for His Enemy**Foe Accused of Attempting to Lead Boy Astray**Story Clears Up Killing of Youth in Auto*

Effects of age of 244 South Lake street, to save his 15-year-old brother, Marion Mitchell, from the influence of an asserted hi-jacker Sunday night, resulted in a gun-shot wound in the youth's head that caused his death early yesterday morning. The boy's confession made yesterday afternoon by the older brother.

Three shots were fired from a .32 calibre pistol, it was said, at the automobile of H. F. Thomas, the man he said he suspected of trying to lead his brother astray, one of the driving passengers of whom was a passenger in the car.

Mitchell, in a full confession before Special Deputy State Attorney Paul C. Bean and Detectives Lieutenants Bean, Edwards and Condafer,

NIGHT LOT DEALS BRING DIVORCE

Wife Charges Realty Man Had Moody Pretty Girl Clients

Mrs. Fannie E. Jordan wanted her husband to sell plenty of real estate, and she did not object to most of his clients being young and pretty girls, she said. But the fact that he showed his lots late at night roused her suspicion, she told Judge Gates, at the trial of her suit for divorce from Charles E. Jordan.

"I noticed he did all of his selling at night," she said. "He was forever going out on the excuse that he had to show his lots to some old clients, and he had girl customers."

Judge Gates concurred in her suspicion and granted her a decree.

declared he intended to frighten him by shooting at his tires, but aimed too high. Two shots were fired following two altercations between Thomas and Mitchell over the former's asserted influence on the boy.

As a result of the confession the older Mitchell is being held without bail on a charge of murder, according to Mr. Bean, and will be prosecuted in its fullest extent.

THREE SHOTS FIRED

Young Mitchell was shot late Sunday night, while riding in a motor car driven by Thomas with the latter's wife accompanying them. The party had just started to drive away from the residence of the younger Mitchell at 244 South Lake street when considerable trouble was assumed. During the afternoon words were declared to have been passed between the older Mitchell and Thomas.

According to Mitchell, he returned to Los Angeles Saturday from Florida. Sunday afternoon, Thomas declared, the Thomas' daughter, young Marion, and the wife of the older Mitchell, gathered at the latter's apartment at 244 South Lake street where considerable trouble was assumed. During the afternoon words were declared to have been passed between the older Mitchell and Thomas.

Shooting of Boy in Mystery Cleared Up

Principals in "Mistake Killing"

Above—H. Paul Mitchell telling story of shooting to Detective Buckler. Center—Marion Mitchell. Right—H. Thomas.

Above—H. Paul Mitchell at the time of the fight, when he was severely beaten by his brother. Below—H. Thomas, who was at the scene of the fight, when he was severely beaten by his brother. Below—H. Thomas, who was at the scene of the fight, when he was severely beaten by his brother.

Shortly after the fight, the party patched up their differences and all went to a cafe for dinner, during which time more liquor was drunk. Mitchell left about 9:30 or 10 o'clock, the party broke up, according to Mitchell, the younger Mitchell driving away with the Thomas.

Mitchell followed the other party to the Serrano-street home and there another altercation took place. The two brothers then left when he demanded that Thomas leave the younger brother alone.

According to Mitchell, Thomas started to drive away, and took a .22 caliber rifle from his own car and fired three shots at the Thomas machine. Without waiting to ascertain the effect of his shots, Mitchell jumped into his own car and drove hurriedly away from the scene, he declared.

Police immediately fastened the shooting on Mitchell early yesterday morning when his wrecked automobile was found at Swanson Place at 11:30. Having traveled a distance from the scene of the shooting, three exploded .22 caliber shells were found on the floor of the wrecked car. These were identified as Mitchell's name with an address at 4428 Melrose street.

MITCHFIELD TRACED

Following the trail from the wrecked car, the police traced Mitchell to an oil station run by B. A. Knight at 1335 Santa Monica Boulevard. Knight and an employee, Randolph Fleming, later found the car in the station, which had appeared at their station shortly before midnight Sunday, and asked a tow to be provided for his car, which was then found to be wrecked. When informed such help was not available, Mitchell was said to have driven away and then to have left the station.

Mitchell was brought into the affair early yesterday morning when he appeared at the hospital in response to a phone call that his brother had been injured. He was ordered held pending investigation after both he and Thomas had received having exchanged blows that resulted in Mitchell's facial bruising. His confession followed a day of questioning and the efforts of the police in investigating the crime from clues centered about the exploded shells.

OFFICERS PRAISED

The younger Mitchell resided in an apartment at 451 South Bixel street, living with a James Tregoff, formerly a waiter at a downtown coffee house. Tregoff, Mitchell also had been employed. Tregoff was questioned immediately after the shooting, but was unable to throw any light on the same.

Young Mitchell's body was removed yesterday to the Garret Brothers' undertaking parlor, but funeral arrangements have not been made.

Following Mitchell's confession, Mr. Pitts forwarded a letter to Col. W. C. Heath commanding the work of the four police officers who handled the case. The letter highly praised Detective Captain Bean, Detectives Andrews, Drury, Conner and Edwards for solving the case and for obtaining an admission of guilt from the slayer within a few hours of his arrest.

Worn out by twenty-four hours of sleeplessness, Mrs. Paul Mitchell, wife of the confessed slayer of her son, was so exhausted yesterday afternoon declared that she will stick to her husband, and expressed full confidence in his innocence. "No one could love a brother more than Paul loved Marion,"

animal families existing today, including the ostriches, the cassowaries and some of the branches of the herbivores."

FIND MORE EGGS

"A member of the staff was making intensive work in the field and was always on the lookout for them," said Dr. Andrews. "One day he spied a nest near the top of a tall cliff. It was impossible to climb up the face of the rocky wall and he therefore made a detour of some distance, succeeding finally in gaining access to the top of the cliff. He then had to search to locate the nest from above, he was astonished to find ends of a dinosaur egg projecting from the side of the cliff. This nest was joined by other members of the staff as rapidly as they could gain the top of the cliff. Here the whole party began to dig systematically, in danger every minute of toppling over the edge, which would mean a sheer drop of more than 200 feet. But they succeeded by finding a nest of nine eggs in an excellent state of preservation. After that we were on the lookout for more all the time, adopting the slogan, 'Digger and better eggs'."

MANY OBSTACLES

The film shown by the explorer furnished a graphic picture of what the Gobi Desert looks like, the pictures showing the deserts, the animals, many of the wild animals that abound in the desert, and last but not least, the struggles of the men to get to the top of the cliff over the sand dunes, around steep declivities, through mud and water and overcoming many obstacles.

"Our care, of which we had seven, served the purpose at times of wild mountain goats and at other times of the fierce grizzlies," explained Dr. Andrews.

"When I first suggested using cars in the Gobi I was politely informed that I was crazy to think of the territory that I was a fool, because automobile travel in the Gobi was impossible. Considering myself as the thoughtless, it only fools who accomplish the impossible, we set out, using American cars, though I was strongly advised to use French or Italian machines. I felt that inasmuch as this was an American expedition, however, we should be patriotic enough to use American machines. We had very good factors stood up under the rough usage they received had more than ever convinced me of the efficiency of homemade products."

GUEST OF ADVENTURERS

Members of the Adventurers' Club will have Dr. Andrews as the honor guest of an open house and informal dinner Thanksgiving afternoon. The dinner will be given on Sunday afternoon, in the delegation to meet him was John Anton Ford, a former classmate of Dr. Andrews at Elmont College and official of the Adventurers' Club.

From noon until 4 p.m. the club headquarters at the Ambassador Hotel will be open to the Adventurers. In the evening the club will give an informal dinner for Dr. Andrews and a group of members who will be here to discuss their various missions. This will take place at the Studio Inn, Sixth and New Hampshire.

TANNER DISCUSSES EXPLORATIONS

Expeditions of exploration and excavation, revealing the results of research in ancient, middle age and modern archaeological productions, were discussed last night at the University of Southern California by Rollin H. Tanner of New York, general secretary of the Archaeological Institute of America.

In speaking on "Modern Productions of Ancient Classical Drama," Prof. Tanner, who is associate professor of classics at New York University, discussed the problems confronting the producer in gathering archaeological information needed to produce classical drama in the modern type of theater, background, stage properties, costumes and the rendering of chorals parts and presentation of Greek dances with illustrations and slides and a series of pictures taken from the principal professional and college productions directed by Prof. Tanner at Indiana, Denmark and Copenhagen, N. Y.

Dr. R. B. Von KleinSmid, president of the University of Southern California, and also president of the Archaeological Institute of America, was present at the meeting.

Dr. L. M. Riddle, head of the division of romance languages, and secretary of the local archaeological society, presented the speaker.

ANDREWS TO MAKE THREE MORE EXPEDITIONS

BY A. P. MONT WILKS

CALIFORNIA (Cal.) Nov. 21.—Roy C. Andrews, American explorer who recently returned from aกลด of exploration in the Gobi Desert of Asia, announced in a lecture here tonight at Pomona College, that he will make perhaps three more trips into the territory of his recent search.

The first of these trips, he said, will start about the middle of April, 1926. The other expeditions will be made in an effort to establish the origin of a prehistoric two-horned beast which as yet has not been classified and which is the latest addition to the list of 20,000 years ago.

LOS ANGELES (Loc Ahng-hay-ahs)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is exclusively entitled to
the use of all news services, and no other news
service is entitled to publish any news or
material published here which.

These aims at all times to be scrupulous in
every published statement of fact. Readers who
will confer a favor by calling attention of the Edi-
torial Department to this error.

EASY MONEY

Nowadays when a man comes into an
extra \$1000 he buys a new \$3000 car with it.

BUSY
Anyway, with all these investigations,
no one can truthfully say that the person-
nel of our Navy leads a life of idleness in
peace time.

CHILLS AND FEVER
One can't help feeling sorry for poor
Florida in its present high fever. For it
wouldn't be Florida if the fever weren't
quickly followed by severe chills.

SMALL GUYS
The scientists and explorers who are
going into the wilds of Papus in quest of a
mysterious race of pygmies are journeying
far afield. It is whispered that there are
still a number of pygmies holding down po-
litical jobs at Sacramento,

LAND OF OPPORTUNITY
The new head of the biggest savings
bank in New York came to this country as
an emigrant lad fifty years ago and was
first admitted to the bank as an errand boy.
He has been growing up inside ever since
and is now in full command. There are no
doors closed against seal and industry in
this country.

COLLEGE DAYS
An efficiency sharp gives his opinion
that the average value of a college education
in this country is \$70,000. At that rate
it pays mighty well on the investment, but
it does seem that a lot of youths are throw-
ing away their \$70,000. They are going to
college, but it isn't certain that they are
getting an education.

WHY IS A LADY?
Now a husband is complaining in the
divorce court that the wife persists in wear-
ing his clothes and smoking his cigarettes.
She may behave like a perfect gentleman,
but what he thought he was marrying was
a lady. He says that a woman who insists
on masquerading in the husband's trousers
and tie is no lady. It is hard to say in
these times. A lady is more elastic than
she used to be.

THE RIGHT CHANCE
This is about the first administration
the country has had in which Cabinet pos-
itions could be gained through promotions
within department ranks. Usually Cabinet
positions have been political. Undersecretaries
have done the work, but when there
was a vacancy the undersecretary never
hoped for advancement. Another politician
would be admitted. It is different now.
Efficiency is wanted everywhere and when
there is a vacancy promotions are from the
service.

THE SKIRTED PRISONER

The theory that "a man's home is his
castle" and cannot be legally invaded by an
officer of the law without a warrant has
at last, after much disputation and guess-
ing, been affirmed by recognized authority.
Though generally maintained as a constitu-
tional assurance, many times defended
with force of arms, it is only now, for the
first time, proclaimed as a positive principle
of law.

In a cause appealed to the United States
Supreme Court, in which the prisoner had
been arrested and convicted without the
issuance of a warrant and in which there
was no denial of his guilt, Justice Butler
ruled in the criminal's favor and directed
the action of the lower court. He said in the
course of his opinion, in doubt to the sur-
prise of many ordinarily well-informed per-
sons, that the question of search without
warrant had "never before been directly de-
cided by the court." The popular theory
has rested entirely upon the declaration of
the Constitution that the people shall be
secure in their persons, houses and pa-
pers, "against unreasonable searches and
seizures," and the disposition of some offi-
cials to interpret this to their own liking.
This has many times raised the vexing question.
It has been particularly the case under
the prohibition laws, and Justice Butler has
performed a valuable service in removing
any possible ambiguity and taking a clear
cut from the mouth of the defiant law-breaker.

TOO TRUSTFUL
The government has the idea that there
can be too much centralization, in the
movies. It is not good for the State that
one concern should initiate, direct, produce,
distribute and exhibit the films and own
control the theaters in which they are
shown. That is carrying the combination
too far. It is better for the public that the
making and exhibition of pictures should
be in different hands. A man with a bright
idea should be able to produce a picture
under his own steam and find an open field
for its showing. Picture-making is one
area in which ambition, genius, intelligence
and individuality should not be muzzled or
controlled.

TOO MUCH OF A MUCHNESS

The Boxing Commission is taking over
the fight game in California before the pro-
moters wear each other out. They have
been creating a number of massive arenas
in this section. They will hold from \$600 to
20,000 spectators and the owners or lessees
have been competing savagely with one an-
other in the effort to fill their places every
week. They have been putting up big purse
and rounding up popular batters and as a
result the game has been very much over-
done. There are not enough fans willing
to pay \$10 to \$20 a week to see two or three
boxing programs—even if the battling is
high class. If the promoters kept on in com-
petition they might all go broke. As it is,
unless a top-notch card can be provided the
warriors are faced by vast batteries of
empty seats. So the Boxing Commission
butted to save the managers from them
selves.

UNDER CLOUDLESS SKIES
"Is Los Angeles real estate advancing
or receding?" "Has the land boom in Flor-
ida knocked the bottom out of the real es-
tate market in Los Angeles?" These and
similar queries are received occasionally
through the mail from East and Middle
West points. They are occasioned by prop-
aganda unfavorable to Southern California
which appears with a frequency that at
times suggests collusion in the eastern press.

Such inquiries can best be answered by
facts concerning the relative prices of Los
Angeles real estate now and five or six
years ago. In the local edition of The
Times on Sunday was recorded the sale of
a corner of Eighth and Figueroa worth for
\$1,300,000. In 1919 the Elks' Club bought
this property with but minor improvements
for \$340,000. In 1924 the Elks resold to Top-
litsky for \$350,000. In less than eighteen
months Toplitsky resold to Schenck and
Rosen for \$1,300,000. The improvements are
practically the same as in 1919. To go back
further, this piece of land sold in 1915 for
\$250.

This is not an exceptional, an isolated in-
stance. It is just a straw that indicates
which way the wind is blowing. Greater
proportional increases have been recorded
frequently during the last three or four
years. The upward trend of prices is un-
broken. Some districts increase faster than
others; but the general trend is steadily
higher; for prices invariably keep pace with
population and industry.

There has been no depression, because
there has been no boom. The demand for
property that lends itself to profitable im-
provement, both business and residential,
becomes daily more insistent.

During the last six years \$300,000,000 has
been expended in building construction in
the city of Los Angeles; and building per-
mits for the last six months are far above
the average for the period.

Some may protest that the peak must be
reached soon, that there is a limit to every-
thing. The peak will be reached when the
peak of population and industry is reached;

when the lure of the Southwest loses its
charm; when the star of Pacific retires its
course toward the east; when our heritage
of industrial liberty is lost; when a genera-
tion arises to rebel against such increasing
prosperity and destroys what its forebears
have created; when the right to the peaceful
enjoyment of what one has inherited or
acquired through his own exertions is de-
stroyed by bad government or absence of
government. When these things come to
pass, Los Angeles, too, will pass. But of
these appears as yet not even so much as a
tiny speck on the horizon.

During the last six years \$300,000,000 has
been expended in building construction in
the city of Los Angeles; and building per-
mits for the last six months are far above
the average for the period.

Some may protest that the peak must be
reached soon, that there is a limit to every-
thing. The peak will be reached when the

pass, Los Angeles, too, will pass. But of
these appears as yet not even so much as a
tiny speck on the horizon.

During the last six years \$300,000,000 has
been expended in building construction in
the city of Los Angeles; and building per-
mits for the last six months are far above
the average for the period.

Some may protest that the peak must be
reached soon, that there is a limit to every-
thing. The peak will be reached when the
peak of population and industry is reached;

when the lure of the Southwest loses its
charm; when the star of Pacific retires its
course toward the east; when our heritage
of industrial liberty is lost; when a genera-
tion arises to rebel against such increasing
prosperity and destroys what its forebears
have created; when the right to the peaceful
enjoyment of what one has inherited or
acquired through his own exertions is de-
stroyed by bad government or absence of
government. When these things come to
pass, Los Angeles, too, will pass. But of
these appears as yet not even so much as a
tiny speck on the horizon.

Opposite
Woolworth Park

at Lake
Telephone
6000

MEZZANINE FLOOR NEW YORK STORE

FULLERTON—CHAPMAN THEATRE

...will be served at the Mary Louise Thanksgiving Day, from one until eight o'clock.

...The matchless viands and ideal service of the Mary Louise have a new and delightful meaning to this festive day.

Reservations should be made at once... to avoid disappointment!

What Women are Doing

Blue Triangle Club
BY MYRA NYE

Blue Triangle Club at 611 South Spring street today will be the scene of a very attractive Thanksgiving party program. Between 200 and 300 girls will be present for the dinner and program following which the orchestra will be furnished during the dinner hour.

The program will consist of a general grand march, the Thanksgiving Eve ball of the Young Women's Christian Association, "Christ's Entry Into Jerusalem," by Plockhorst; "Christ Taking Leave of His Mother," by Plockhorst; "The Mass of the Te Deum," "Christ the Captive," by Hofmann; "Christ Bearing the Cross," by Hofmann, and "He Is Risen," by Plockhorst.

Young Ladies' Institute

Opening with a beautiful and

Hofmann; "Christ in the Home of Mary and Martha," by Hofmann; "Jesus and the Woman at Samaria," by Hofmann; "Christ Enters Jerusalem," by Plockhorst; "Christ Taking Leave of His Mother," by Plockhorst; "The Mass of the Te Deum," "Christ the Captive," by Hofmann; "Christ Bearing the Cross," by Hofmann, and "He Is Risen," by Plockhorst.

er to find out what Dr. McNeile has arranged for them.

Business and Professional

Thanksgiving turkey with all the trimmings and a delightful dinner was served members of the Young Women's Professional Club at their November meeting, held the 19th inst. The meeting was a gay one and thoroughly enjoyed by the members.

Lincoln Study Club

A paper, "Helen Hunt Jackson," by Mrs. Margaret Clausen, and a Spanish dance in costume by the Lincoln Study Club members will be included in the program for the Lincoln Study Club today at the Woman's University Club.

Hollywood Woman's Club

Some lucky member of the Juniors of the Hollywood Woman's Club will find herself on the way to college when the new term opens, through the kindness of the Junior Membership of about one hundred young women who give the proceeds of their social affairs for philanthropic purposes. The girls will help the club hall will help in supplying the annual Christmas entertainment, which the club provides orphans of the city.

Soroptimist

Hear ye! Hear ye! The town crier, Alie M. Miller, calls all Soroptimists together to celebrate the November birthdays in accordance with the customs of Merrie England. The tables will be set with the customs of Merrie England. At 12 o'clock today in the music room of the Biltmore, members of the Soroptimist Club will gather.

Garfield Study Club

Mrs. Allan Nye entertained the

members of the Garfield Study Club at her home, 1300 Liltur avenue, Thursday afternoon. Dr. George Schrankovsky will give a talk on music. Miss Grace Fernand, teacher of child psychology in the University of California, Los Angeles Branch, will be the main speaker at the next meeting Thursday, December 3.

American Composition Program

Low Angle's Operas and Fine Arts Club of which Mrs. J. T. Anderson is president, will present as its offering for Saturday evening a music program of American compositions. As is custom-

Elizabeth Heitmuller, Evelyn Young, Alice Morgan and Virginia Vincent.

Ebell Lunchmen

Interesting representatives of the stage and screen are to be present at the luncheon tomorrow at the Ebell Club, when club members will hear Hope Loring, scenario writer from New York, Pickford and actress silent star, and Mrs. Louis Untermeyer, playwright, and Mrs.

Louise Talor, Gertrude, district chairman of drama, who will tell her impressions of "The Great Hat," which she saw played in Chicago and which has aroused

much discussion. Preceding the luncheon, the Drama Club of the department will talk on "Why We Love the Theatre." Miss Grace Miley, Miss Dolores Falsethorpe and a group of assistant hostesses to the luncheon will be on hand to assist. The aims and work of this club are known on the Pacific Coast, the Los Angeles branch alone having a membership of several hundred young women who give the proceeds of their social affairs for philanthropic purposes. The girls will help the club hall will help in supplying the annual Christmas entertainment, which the club provides orphans of the city.

American Composition Program

Low Angle's Operas and Fine Arts Club of which Mrs. J. T. Anderson is president, will present as its offering for Saturday evening a music program of American compositions. As is custom-

mary for these popular semi-monthly events, the entertainment will be preceded by a 6:30 o'clock dinner, for which may be made of Miss Bells N. Hall, 1112 Elden avenue.

Mrs. Ida Gray Scott will direct

the program, which will feature combination by committee in the Eastern States. Among the artists, who will appear, are Willard Butterworth, who has achieved fame in England and America; Mina, Anna, Sophie Sprott, dramatic contralto, who needs no introduction to music fans; and Mrs. John G. Lewis, soprano, who has been heard in Los Angeles; Mildred Hawke, pianist, a former member of the city, and Waldemar Seliger, concert violinist, internationally known through his work with the Symphony Orchestra of Berlin and the National Symphony Orchestra at Kiel, of which he was first violin. Morris Wolfson and Anne Thomas McDonald will be accompanists.

Parent-Teacher Associations

Manchester Avenue P.T.A. will hold an evening meeting tomorrow in the school auditorium on Manchester street and Manchester avenue.

The program will be supplied by Madge Baumann, Mrs. Schwankovsky will give a talk on music. Miss Grace Fernand, teacher of child psychology in the University of California, Los Angeles Branch, will be the main speaker of the evening. After the program cake and coffee will be served.

PROSPERITY OF CONTINENT SEEN

Returning Angelino Tells of Impression in Europe

Much Building Going on in France and Italy

Paris and Provinces Cater to American Tourist

The people of France and Italy appear prosperous, much building and development are going on, and American tourists are spending millions in Europe, according to Will E. Keller, president of the Globe Grain and Milling Company, who returned yesterday from a tour of the continent.

Mr. Keller was accompanied by Mr. W. H. Smith, and Mrs. W. E. Waddell. In Paris they started upon a fifty-one-day tour which took them through France, Southern Germany, Switzerland and Italy.

Mr. Keller said a Paris newspaper published a statement that Americans spent \$20,000,000 in France last summer. Such an immense crowd went to Europe, he said, that thousands are stranded, waiting for ships to bring them home, and the returning continent will continue until late in December.

The French realize that the American tourist is one of their greatest industries, said Mr. Keller, and are preparing to receive him in great numbers. All over the country there are efforts to work at the port on the highway, building them up for American travel. In Avignon, the ancient papal palace is a great attraction. Mr. Keller said the guide told him the greatest expenditure was for the purpose of attracting tourists.

A large amount of building is going on in Paris, Lyons and other sections of France, as well as in Italy. Mr. Keller said most of the tourists are living in Rome than in any other European city. The people of Italy, he said, seem to rejoice under the rule of Mussolini and Fascism.

With the people so busy and appear prosperous the governments plead bankruptcy. This is true, in part, Mr. Keller said, to the extent that there are large military establishments.

Downtown Sale Negotiated for \$3000 Per Foot

The property located at Nos. 721 and 723 West Sixth street, improved with a four-story brick structure, containing hotel and stores, was sold yesterday by the owner to Abe Prell represented by C. E. Jarvis of the Robert Baker realty firm, W. L. Hollingsworth & Co., representing the seller, John W. Morris.

The property has been in the same ownership for forty years. Mr. Prell bought the property for an investment at a reported price of \$3000 per front foot.

COUNCIL TO ACT ON OVERTIME PAYMENTS

Mayor Cryer yesterday joined in the City Council's battle of many years, unsuccessful thus far, to reduce the amount of overtime paid to employees of the garbage collection and other divisions of the City Engineer's office. Each city engineer has promised to reduce overtime payments, and yet they have climbed until the September and October payrolls reached \$115,000. The Mayor approved of the September overtime pay roll with the suggestion that the Council do something effective to reduce the pay rolls either by abolishing overtime payments or some other method to be devised.

As the defense pointed out, the claim was that her mother's action was justified and an act of self-defense to prevent injury at the hands of May.

The court asked Queen or right or wrong of the evolution or fundamentalist doctrine," she told the court, "but a question of whether one person has a right to injure another."

Mrs. Roser admitted striking Merry with the chain. The court ruled that she did not guilty.

Associated with Queen Silver as counsel was Henry V. Roser, her stepfather, retired attorney and past candidate for Governor in 1918.

The Rossers and Queen Silver live at Ingleside.

RECIPES

RAVIOLI
J. G. O., Edison, Cal.
Sift into a bowl two cupfuls of flour. Add a tea-spoonful of salt and mix the smooth dough with two eggs and a little ice water; knead the dough well and roll it half an inch thick. Cut the dough into squares. Divide the dough into two equal parts and roll out each part into a thin square piece. In the center of each square place a rounded tea-spoonful of a mixture made by mixing one cupful of very finely diced chicken, half a cupful of bread crumbs, a cupful of beans, a cupful of dried fruit, a cupful of raisins, a quarter of a cupful of sultanas, a quarter of a level teaspoonful of grated nutmeg, half a teaspoonful of powdered mace, a tea-spoonful of salt and paprika. Beat two egg yolks with one cupful of sugar and beat into the mixture two finely chopped, boiled cabanossi sausages. Place the other piece of paste all over with an egg white beaten with four tablespoonsfuls of water. Carefully lay the broken pieces of ravioli over the mixture with the forcemeat and press the two closely together. Straight lines through the force-meat will prevent the ravioli from opening. Cook in a hot platter, pour over Italian sauce and sprinkle with grated Parmesan cheese.

PIE FILLING
C. E. L., Los Angeles:
Mix three tablespoonsfuls of corn-starch with one-third of a cupful of sugar, place in a double boiler, add one cupful of finely diced cooked chicken, half a cupful of bread crumbs, a cupful of beans, a cupful of dried fruit, a cupful of raisins, a quarter of a level teaspoonful of

grated nutmeg, half a teaspoonful of powdered mace, a tea-spoonful of salt and paprika. Beat two egg yolks with one cupful of sugar and beat into the mixture two finely chopped, boiled cabanossi sausages. Place the other piece of paste all over with an egg white beaten with four tablespoonsfuls of water. Carefully lay the broken pieces of ravioli over the mixture with the forcemeat and press the two closely together. Straight lines through the force-meat will prevent the ravioli from opening. Cook in a hot platter, pour over Italian sauce and sprinkle with grated Parmesan cheese.

TAGLIATELLE TONY
M. L. B., Redlands:
Boil three-quarters of a pound of tagliatelle (flat Italian pasta) in boiling salted water twenty-five minutes. Place two tablespoonsfuls of butter in a double boiler, add one cupful of ham cut in small dice, a cupful of finely chopped carrots and half a cupful of finely chopped onions, add a cupful of peeled tomatoes, add three-quarters of a cupful of grated pineapples and spread between the cake layers.

MARZIPAN SALAD
H. P. F. S., Hollywood:
Marzipan has many uses and is made in different ways. One of the most popular marzipan pastes is made for covering tarts. This is made by mixing two cupfuls of flour with two tablespoonsfuls of sugar, half a cupful of butter and when well mixed add two egg yolks and two tablespoonsfuls of cold water. Roll out the paste, cut it into a square form with it. Blanch, dry and grate one pound of almonds and add them to the paste. Add a third cupful of powdered sugar and the juice of two lemons. Place this mixture in a double boiler and stir until the sugar is dissolved and the mixture is stiff. Beat with powdered sugar and garnish with chopped cherries.

Marzipan paste for molding small figures is made by making a stiff firm paste with one pound of almond paste, two egg whites, four tablespoonsfuls of powdered sugar and sufficient powdered sugar to make it firm enough to mold. This paste may be cut and molded into any form desired. It is coloring is worked into the paste.

MARSHMALLOW MERINGUE
W. R. S., San Fernando:
Place in a saucepan one and one-third cupfuls of sugar, four tablespoonsfuls of water and two drops of lemon juice; bring to a boil and boil until it will spin a thread when a little is dropped from the spoon. Remove from the heat and add one dozen marshmallows cut in small pieces and stir until they are melted and the mixture is boiling. Beat the whites of two eggs until stiff, fold in one cupful of sugar and beat in slowly the boiling mixture;

beat until lukewarm and spread on the pie.

CREAMY ICING

Picce the white of one egg in a bowl and add one tablespoonful of water and one-eighth cupful of sifted confectioners' XXXX sugar, stir in two tablespoonsfuls of melted butter and enough cream to make a frosting. Heat enough to warm the water and add one tablespoonful of grated orange rind.

B. C. Santa Ana:
Place in a small saucepan two tablespoonsfuls of butter, four tablespoonsfuls of sugar, two tablespoonsfuls of flour, one cupful of sugar, one cupful of water and one cupful of baking powder; rub into this mixture four tablespoonsfuls of butter and when like a paste add two eggs, stir in two quarters of a cupful of cold milk and work to a smooth dough. Roll out on a floured board, flatten out in an oblong shape, half an inch in thickness and spread with the orange filling; roll up like a jelly roll, cut in three-quarter-inch slices, place in a buttered biscuit pan that has been rubbed with butter. Brush tops with melted butter and bake fifteen minutes in a moderate oven.

AVOCADO SALAD

Cut the avocado in half lengthwise, remove the seed, chop out the brown skin from the seed, and serve half an avocado to a man. They must also be "unpeeled" and the seeds must be removed.

Fill the center of the avocado with lemon French dressing.

Cut the meat of an avocado in dice and mix it in a cold bowl with a equal amount of diced oranges, an equal amount of diced cherries, and a few slices of French dressing to湿润. The dressing may be omitted.

Turn the meat of the avocado on crisp lettuce hearts, garnish with strips of pimento and sprinkle with chopped walnut meats.

All that has been done for the avocado should be done for the marzipan.

The oven-trained students will make for the whole course and to go to the dominion concerned. If they are approved for employment, they will receive free room and board, and those who have received any skilled trade training or financial assistance from public funds.

The oven-trained students will receive the same pay as the regular students, which is \$25 a month.

There will be two nonresidential and two residential centers, and the former will be located in large towns and the latter in the country.

The nonresidential men will be trained with a view to employment in Great Britain, while the residential men will receive special instruction for employment overseas.

It is made clear that the scheme does not intend to turn out men completely for a specific trade.

The general course aims at turning out hand men who have trained under workshop discipline so that they can afford to pay a small advance for apprenticeship.

BASIS ALTERED IN GAS HEARING*Value of Local Company as Going Concern Injected**Earning of 8 1/2 Per Cent Asked on Intangible Assets**Added Sum Figured as Tenth of Appraised Cost*

A new element entered yesterday into the determination of gas rates in Los Angeles in course of a hearing which the State Railroad Commission is holding on the petition of the Los Angeles Gas and Electric Corporation for authority to increase rates.

The corporation claimed the right to earn in addition to regular earnings, 8 1/2 per cent of \$2,000,000 of valuation of intangible assets before advanced by the commission into the valuation of the corporation for the purpose of determining what gas rates should be charged to yield a fair return.

The question is for the valuation of an intangible asset representing the value of the corporation in addition to the value of its tangible or physical property.

PUT AT 10 PER CENT

"Are you claiming the right to earn on going values?" City Attorney Stephens asked of Paul Overton, the corporation's counsel when Mr. Overton injected the new element.

"Yes, it should be taken into consideration," Overton replied.

J. L. Maser, the corporation's gas rate expert, was on the witness stand and it was through him that Overton brought out that the valuation of the corporation at \$2,000,000 was determined by taking the commission's valuation in its last Los Angeles Gas and Electric Corporation case in 1923, and adding the cost of actual cost of betterments and additions since that time, land being figured in at its appraised value.

INTEREST IN ACTION

The Los Angeles Gas and Electric Corporation's petition for higher rates is not based on the possibility that the commission may grant the rate increase petition of the three companies which provide it with natural gas. Paul Overton the corporation's counsel, brought out in the hearing. He said the interests of his client, his associates, applying is needed because of conditions arising under present rates of gas purchase and sale, and that if the commission ordered a rate increase, the rates charged by the three supply companies, then there will be added need for additional increase above that is required by present conditions.

The three companies from which the corporation purchases natural gas are the Indiana Gas Company, Southern California Gas Company, and Southern Counties Gas Company, each of which has petitioned for an order increasing its rates. The present industry opinion is that in Overton's case; now the corporation's case, is an order subsequently to all some three of the pipe lines. The city's opposition and that of affiliated associations to the proposed increases will become acute before the commission, when the companies and corporations have presented their evidence and time allowed for study by the opposition has elapsed.

SOURCE DIFFERS

Overton pointed out that recently the commission ordered gas rate decreases in some parts of the State, and said the question has now arisen as to why the organizations providing gas have not asked for higher rates. He explained that "the principal difference is that the corporation is buying a gas inside from oil, and as the price of oil declines the decrease is reflected to the gas consumer," and pointed out that the local gas is virtually all natural gas, natural gas being augmented somewhat with manufactured gas from oil and with "reformed" gas.

Gas rate experts' patent day received, Overton said, 7,250 standard units of gas for \$1, whereas in 1921 they received but 2,250 standard units for \$1, and as far as more than that year. He said that since present rates were fixed by the commission in 1921, the commission had increased them in small units, which, in effect, reduced the rates more than 10 per cent.

Overton said, the corporation's investigations while its rates were made was \$15,000,000, and that it is now \$12,000,000. He said present rates have not yielded as much as the corporation's value of the corporation's property, and that if present rates prevail the 1926 return will be less than \$12,000,000, and said present rates have yielded the corporation \$12,000,000 less than the commission found the corporation was entitled to when it was entitled to the present rates.

ASKS 8 1/2 PER CENT

The commission did not fix rates permitting the corporation to earn on going value, or as much tangible value as it is entitled to have on its assets, Commissioner De Cote said. He said that in the \$15,000,000 figure the corporation has not included anything for going value, and that he arrived at the value by use of production instead of production figures. He said that if the commission does not take into consideration going value and present rates, the corporation's value does not authorize an 8 1/2 per cent minimum return on the total that arrived at, it will not be acting in accordance with the law, the United States Supreme Court, and will deny to the corporation just rights.

J. L. Maser, the corporation's gas rate expert, testified that the corporation experienced a heavy loss in patrons during the first six months of this year, but that gains since that time have amounted to about 10,000 patrons. He testified that the investment of the corporation per patron, or meter, has increased from \$22 to \$25 since 1926.

Commissioner Seavey, who is conducting the hearing, announced at the beginning of the adjournment of the September hearing the Southern Counties Gas Company has applied for higher rates for approval of certain contracts with the corporation and for

GOLDEN WEDDING CELEBRATED
Friends Aid Couple in Observance

Yesterday and Today
Above—Mr. and Mrs. O. F. Ketcham at the time of their marriage fifty years ago. Below—As they appeared yesterday.

SEXY old friends from Indiana yesterday—Mr. and Mrs. O. F. Ketcham of 1916. Monroe street is the celebration of their fiftieth wedding anniversary Sunday night.

Mrs. Ketcham was Miss Martha Miller of Bourbon, Ind., before her marriage; the couple moved here

from Plymouth, Ind., twenty years ago.

Her daughter, Mrs. Bassi, Kough, assisted them in receiving.

The house was decorated in red, white chrysanthemums and yellow roses, being set by Marie DeVoe, soprano, singing songs of fifty years ago, accompanied by Miss Madeline Royle at the piano.

PORT LEASE TRIAL BEGUN

Technical Testimony Given in City's Suit to Fix Rights to Pan American Holding

Hearing on a suit to determine the legality of the Pan American Petroleum Company's lease on 1200 feet and 800 feet of land area in the harbor district was begun yesterday before Judge McLucas of Superior Court. The suit was brought by the city and asks the court to declare the rights of the city and the petroleum company under the lease.

According to the city's bill of action, the lease was granted in June, 1922, when Edgar McKeen was chairman of the Board of Harbor Commissioners, and the permit in behalf of the city that the permit granting the lease, which was to run for thirty years from the date of grant, was to be granted in the name of the city, and the duration of the terms of the city charter, and therefore revocable.

The bill asserted that the lease was indefinite in its scope, and did not relate to any harbor lands defined by boundaries.

Yesterday's testimony of a technical nature relating to the location of the premises and the nature of the improvements theron before and after the lease was executed.

The bill also asserted that the term "Municipal Pier No. 1" was indefinite in its scope, and did not relate to any harbor lands defined by boundaries.

Yesterday's testimony of a technical nature relating to the location of the premises and the nature of the improvements theron before and after the lease was executed.

Here is Fred Anderson's code for the merchant:

You are the mirror of your soul. Keep it trimmed with sunshines and radiance. Your store window is the mirror of your store. Keep it trimmed—tie up with your advertising.

CHAPLIN IN OPPOSITION TO MERGER

Declares Preference for Releasing Independence; Metro-Artists Deal Up

Opposition to the contemplated releasing combination of Metro-Goldwyn and United Artists was being advanced yesterday by Charlie Chaplin, who learned from authorities here that Chaplin and his attorney, Nathan Burkman, who arrived from the East yesterday, sat in their first conference with the men who have been held on the subject of amalgamation of distributing facilities. The meeting was held yesterday p.m. in Marx Pickford's bungalow at the Fairbanks studio, and extended past the dinner hour well into the evening, one source said. After Burkman was done, Chaplin apparently impassioned address to the conference.

Chaplin was asked, when he left the studio, if he would result in the deal failing. "I will say this: I am in favor of independence," he said. "I am not saying I will not go in."

Officials of the other organizations said the agreement for merging releasing facilities could not be reached for several days.

Chaplin and Attorney Burkman, the conference was attended by Joseph M. Schenck, Nicholas Schenck, Robert Rubin, Maurice Moscovitch, Dennis O'Brien, who is Fairbanks' attorney, Mary Pickford and Mrs. Charlotte Pickford, Douglas Fairbanks and Robert Fairbanks.

ADDED WALK FOR TUNNEL COMBATTED

Auto Club Urges Council Defeat Project in Second-Street Bore

Proposed construction of a sidewalk on the north side of the Second Street tunnel is being opposed by the Automobile Club of Southern California, which has sent a letter of protest to the City Council.

The proposed sidewalk, it is said, would allow only three lines of vehicles on the narrow street.

The club declared it has found no congestion of pedestrian traffic in the tunnel.

The tunnel is said to be congested with vehicular traffic and further reduction of lines of travel would increase traffic difficulties in the downtown district. The condition of the tunnel has greatly increased through reduction of the vehicular space, according to the Auto Club.

The club asked the City Council to withdraw its report of approval of the project to the City Engineer.

NEW HARBOR TERMINUS IS OPEN TODAY

Union Pacific Will be Host at \$3,000,000 Structure on Terminal Island

The Pacific terminal of the Union Pacific System, comprising the \$3,000,000 freight terminal and new passenger station on Terminal Island, will be opened officially this afternoon, with ceremonies accompanied by the Union Pacific and the San Pedro Chamber of Commerce.

F. H. Krockecker, general manager of the Union Pacific System, and James V. Carroll, general agent of the line for the port area, will open the hosts at the ceremony, scheduled between 2 and 5 o'clock this afternoon, while this evening a reception and dance will be given in that portion of the new terminal where the line will have its road's general offices.

SUCCESSFUL BUSINESS CODE

Fred Anderson, miracle merchant of Coeur d'Alene, Idaho, is credited with doing more business per capita than any other known business institution.

Last year his business ran considerably over \$250,000.

How does he do it, how does he turn his stock three and one-half times a year?

Anderson's secret is the mirror of your soul. Keep it trimmed with sunshines and radiance. Your store window is the mirror of your store. Keep it trimmed—tie up with your advertising.

Goodwill is more than a spoken word. It implies the Golden Rule of business.

Be part of your community, especially in its activities.

League of Nations Takes Hand in Turkish National Pastime

Deportation by Turkish Troops of 8000 Christians Under British Protection is under investigation by commissioners appointed by the League of Nations and now in Zakhe and Mosul in Mesopotamia. Tales of characteristic atrocities accompanied the reports to the powers of the deportation. Above is a group of typical Christian refugees from the district. (P. & A. photo.)

Legal Recognition of Tribal Rites of His Forefathers Saved Matt May, Ute Indian, from gallows. He was charged in Federal Court at Pueblo, Colo., with having buried an infant son alive with his mother, in accordance with tribal custom. Mormon Joe (next to May) also charged with the same man while in prison and must serve twenty to thirty years. Other figures are those of the Indians in brutal ceremony. (P. & A. photo.)

End of a Thrilling Parachute Jump from a plane 2000 feet in the air is pictured above. It shows Chief Petty Officer Ford being snaked along the ground by his parachute a moment after he landed. The actual landing is not the least dangerous part of a jump. (P. & A. photo.)

"Is It Possible, Mr. Gallagher?" "Absolutely, Mr. Shean." The conversation between the two well-known comedians concerns the departure of Ann Luther (above) who is Mrs. Gallagher, for Paris for the purpose of getting a divorce. (P. & A. photo.)

Kip Rhinelander is a Large Laugh to the members of the family of bride, three of whom are caught leaving the courtroom at Wilton after Kip has had a bad day in court. Left to right, sister Gussie and the mother, with a curious flapper tagging. (P. & A. photo.)

A Plea to the Chicago Bandit, Martin Durkin, to give himself up and face trial, has been broadcast by his mother, Mrs. Hattie Durkin (left), and his cousin, Mrs. Hattie Galow. His Capture is imminent, it is believed. (P. & A. photo.)

With Depletion of Its Natural Coal in Sight, England has turned its attention to the matter of salvaging the huge annual slack waste. Photo shows Dr. Rudolph Lessing experimenting in London laboratory with this end in view, under government direction. (Kadel & Herbert photo.)

A World Cruise in a Forty-Foot Lifeboat will be attempted by English mariners who will leave London early in December in which will take them to every big port in the world. Photo cabin. (Kadel & Herbert photo.)

Concern Is Felt for Safety of Near East Relief workers now in the Syrian danger zone, among them Helen Lund of Bridgeport, Ct. (above,) who has been in charge of the Damascus branch. No report has been had of her since hostilities started. (P. & A. photo.)

OUR HISTORY IN PICTURES

265 American Privateers.

by J. CARROLL MARSH

AFTER THE FIRST YEAR OF FIGHTING IN THE WAR OF 1812, GREAT BRITAIN DOUBLED THE STRENGTH OF HER BLOCKADING SQUADRONS AND ONLY FEW SHIPS OF WAR WERE OBLIGED TO REMAIN IN PORT TO AVOID CAPTURE BY SUPERIOR NUMBERS OF THE ENEMY.

IN THIS EMERGENCY HUNDREDS OF LICENSED AMERICAN PRIVATEERS ELIMINATED THE BLOCKADE AND CAPTURED OR DESTROYED ENGLISH MERCHANTMAN ON THE SEVEN SEAS.

THESSE SWIFT HAWKS OF THE SEA PAID THEIR OWNERS ENORMOUS PROFITS AND RENDERED VALUABLE SERVICES TO OUR COUNTRY.

THERE WAS EASY TO FIND CREWS TO MAN THESE VESSELS FOR THERE WERE MANY SAILORS IDLE WHO WERE ATTRACTED BY THE PROMISES OF ACTION, ADVENTURE AND A SHARE OF THE PRIZE-MONEY.

COMMANDED BY DAUNTLESS SKIPPERS, THESE PRIVATEERS EVEN ATTACKED SMALL ENEMY WARSHIPS AND THEIR DARING DEEDS FORM A THRILLING PAGE OF OUR NAVAL HISTORY.

DURING THE WAR AGAINST ENGLAND, PRIVATEERS CAPTURED OVER 2,500 BRITISH VESSELS.

MOST OF THEM SHIPPED OUT OF MASSACHUSETTS, NEW ENGLAND AND NEW YORK.

DOCORAL ISLANDS

These daily history strips make a unique pictorial history of America. Hundreds are clipping them daily and pasting them in

NOVEMBER 24, 1925.—[PART I]

TUESDAY MORNING.

Los Angeles Daily Times.

NOVEMBER 24, 1925.—[PART II]

1 Pastime

She staked her all

Beautiful, wealthy, athletic, talented and a social success—fortune's favorite! Jacquelaine Benton took a fearful chance without thought or hesitation. The man a Greek god—a handsome, cruel, cheating gambler of Mexico's underworld.

Another man? Yes. But read "Moon Madness," a thrilling, vivid story of love and a woman's temptation. How did it all end? Complete in the December number of "True Romances."

Every story in "True Romances" is a true chapter from the life of some man or woman who has lived and learned by bitter experience. Every page contains the closely guarded secrets of lives that might face shipwreck were the authors identified in home or social circle.

In "True Romances" these tales can be told, uncensored by pride, shame or fear of consequences, because the identity of the authors remains forever masked.

May, Ute Indian, from gallows. May carried an infant son alive with the body of his mother. May also charged with the crime, other figures are those of Ute Indians involved.

The Zero Hour Comes in Every Life

Every minute marks the zero hour in some life. Steps are taken that can never be retraced. For weal or woe, the die is cast. Every tick of the clock is freighted with fate and we are but the puppets in a mighty drama. For some the role is triumph, hope, happiness! For some, defeat, despair, desolation!

If I had only known! If youth—gay, untrammeled, beautiful, reckless youth—could only be warned from the pitfalls, the snares and traps, the lurking dangers that bristle along life's pathway—what heartaches and misery would be spared!

"True Romances" is filled with straight told true tales of bliss and bereavement, of winners and losers in the battle of life. Some courted disaster. Some trod the primrose path unwary and unheeding.

Curiosity exacts large fees. Knowledge gained at first hand comes high. In "True Romances" naked truth holds the stage. The sweet and the sad, and joyous and gloomy, the exalting and the life-wrecking experiences of men and women pass in review. The authors can be frank and straightforward, can lay bare their most closely guarded secrets because, and only because, the identity of the writers is cloaked and masked so completely that no one can penetrate the disguise. When you read the December number of "True Romances" you will feel the throb of life in these tales which are told in plain, simple direct language. You will exult with the victors and mourn with the defeated. You will know life better. On the newsstands today. Get your copy.

Read These "True Romances" in the December Number and Learn of Life

the members of the family of his leaving the courtroom at White Plains court. Left to right, sister Grace and upper tagging. (P. & A. photo.)

happiness? Is that the best life has
to offer?

Just a Mountain Girl

Does the simple life in lonely places deny
all color and romance in life? Has the
city a monopoly of wickedness?

The Truth About Men

Are men never to be trusted? The
experiences of a mother and two
daughters.

Does True Love Come Only Once?

Who is to blame for her empty dreams
and mocking memories? Are mothers
always right?

The Folly of Blind Youth
What Happened to Rene Romaine
Can conventions be safely disregarded?
Can one afford to pay the price?

I shall always Love Her

The amazing story of two sisters and a
modern Prince Charming. Did Cinderella
deserve to win or to lose?

False Pride

A dramatic story of a girl who was too
young to know the true from the false—
her thrilling adventures in the night life
set of New York.

After All These Years

Golden hair, with the grace, beauty and
charm of accomplished young woman-
hood—a sure winner. But what about
"the old girl in the front office"?

BABY-BURNING STORY SIFTED**Prosecutors Investigate Heath Confession****Describes Seeing Infant Given to Flames****Names of Two Implicated Women Obtained**

A matter-of-fact confession from John L. Heath, held at the Redondo jail on statutory charges, in which he calmly narrated the details of what he described as the murder of a newborn infant by two women, was being sifted yesterday by Redondo police and investigators from the District Attorney's office.

The suspect, charged with four counts against him as small girl attending the north grammar school at Redondo, made his confession Sunday of his own volition and repeated it yesterday for the benefit of investigators from the District Attorney's office called in on the case.

Shortly after receiving a statement Ben Cohn, chief of the District Attorney's office, announced that Mrs. Winifred Violet Heath, wife of the suspect, would be questioned to determine whether she could shed additional information on her husband's strange story.

At the same time it was announced by Chief of Police Henry of Redondo that he had in his possession the names of the two women implicated by Heath as his wife and the name of a man who is said to have been in the disposal of the infant's body by the two women.

Deputy Bryan, of the District Attorney's office, is heading the search for the two women and the man.

Heath was arrested about ten days ago in his bakery at Redondo, which is located near the school. His arrest followed an extended investigation by police in response to complaints against the suspect. Chief Henry and Police-women Koop of Redondo believed that the two women brought him to have his preliminary hearing at 3 p.m. tomorrow before Justice Moomis at Redondo.

The girl, according to Heath's confession, was strangled to death by the two women on March 17, last, and then was taken by the two women and made a spot on the Redondo-Riviera highway and the body given to the flames. He witnessed the baby's murder, he told investigators, while peering through the window of the house in which the child was born.

Reports at the Coroner's office show that the body of a strangled infant, discovered by James, however, was found in Beverly Hills on March 18, last.

Heath and his wife have been separated for some time and Mrs. Heath has a divorce suit pending.

SAWTELLE HOSPITAL PLANS OUT**Million-Dollar Structure for Soldiers' Home Will be of Southland Design**

This plan and specifications for the new \$1,000,000 hospital at the Sawtelle Soldiers' Home were placed in the hands of Col. O. K. Marshall, governor of the home, yesterday. A set also was placed at the Chamber of Commerce in this city for the convenience of contractors.

The plans call for the construction of an absolutely fireproof structure covering a ground space of 100,000 square feet in the form of a letter "H" with a central structure for the administration offices and utility and kitchen buildings. The wings will have seven stories in height, the north wing six stories and the administration building five stories. The central building by glass-enclosed corridors on the ground floor and ornamental open corridors at the ornamental and third floors.

The entire structure is ideal Californian. It will be a Class-A steel and concrete building, encased in cream-colored brick, and roofed with red tile. The wings will be surrounded by a symmetrical roof garden to the Bow-street Police Court.

The house, it is felt, is ideal. It will be a Class-A steel and concrete building, encased in cream-colored brick, and roofed with red tile. The wings will be surrounded by a symmetrical roof garden to the Bow-street Police Court.

The appropriation by Congress is \$1,500,000, which is designed to pay for the building and equipment.

Scaled proposals for the construction will be received up to 1 p.m., January 18, 1927.

AMERICAN STEAMER REPORTED STRANDED**IT CABLE AND ASSOCIATED PRESS**

LONDON, Nov. 23.—A dispatch to Lloyd's from Hamburg says that the liner Cleveland of the United American Lines, which sailed from New York for Hamburg on the 12th, has gone ashore in the fog near Bremenssen, twenty-five miles northwest of Hamburg, near the mouth of the river Elbe. Tugs are standing by.

CHICAGO AUTO DEATH TOLL REACHES PEAK

CHICAGO, Nov. 23.—The mobile death toll in Chicago and vicinity for 1926 stood at 706 today, higher than for any previous year. Eighteen deaths were recorded here last week, including two on Sunday.

TYPES WILL MINGLE ON BALLROOM FLOOR**CHARGE APATHY TO SECRET RULE****Blame in Phone Quiz Delay Fixed by Nordskog****Excess Revenue of New Rate Given as \$6,000,000****District Meeting Unanimous for More Progress**

Secret government of Los Angeles is responsible for the delay in the telephone rates investigation under way here, Andras Nordskog, chairman of the publicity committee of Mayor Cryer's telephone rate committee, members of the Thirtieth District Civic and Improvement Association last night at a meeting of that organization at the Gates-street school, North Hollywood.

"While citizens of the city and workers are seeking some three million dollars for the Community Chest, the Bell Telephone Co. is still determined to take six million dollars of extra revenue from rates of a year ago," said Nordskog. "Next year will see the total increase in rates in the neighborhood of two millions if citizens are not spurred to action and push the investigation in the increased rates matter," he declared.

MOVING POWER

The American Telephone and Telegraph Company is the moving power behind the rates increase move. Mr. Nordskog, a member of the association, with the Pacific Telephone and Telegraph Company and the Southern California Telephone Company, the two largest telephone companies respectively subsidiary to the national concern, The Western Electric Company, fourth largest equipment company, is controlled by the national concern, he said, and is forced to accept contracts with an added burden of 15 per cent. The result is requests for increased rates on the part of the State companies that they might be able to meet the telephone bill of Los Angeles pay \$2 a month regular for instrument on equipment, while other cities are paying from \$5 to \$10 cents, he charged. A so-called royalty fee is also heavily collected in view of the fact that the instrument patent rights expired some twenty-five years ago.

VOTE FOR SPEED

More than 500 were in attendance at the meeting, and the meeting was unanimously in favor of the move to speed up the investigation and the work of Mr. Nordskog the chairman of the committee to fight state monopoly and pedagogical support in his campaign to obtain reduction in rates. This meeting, according to Mr. Nordskog, was a gathering of many who had addressed regarding the telephone rates controversy, stating citizens of Los Angeles are realizing the importance of the issue and are lending their support to the campaign for a reduction.

DINE JUSTICE RUSSELL

THIRTY-FIVE Guests Sit Down With Judge at Birthday Dinner

Judge of the Peace Louis P. Russell was the guest of honor at a birthday party given last night by Miss Frances L. Brozmer at home, 512½ North Rampart Boulevard.

Thirty-five guests were present to enjoy the southern dinner prepared by colored cooks under the direction of Miss Brozmer, "a daughter of the South." A colored orchestra furnished the music.

Judge Russell, who is a member of the Quonico Marine.

The Army dance has been pushed from its customary October date to November 13, in New York. Other contestants are with Nebbia, Penn State and Georgia Tech. Minnesota will be met again at Minneapolis. Three other contests will be obtained later.

The body of the girl was removed to the Comer undertakers.
